Clausmark is a medium-sized, independent, and internationally operating company based in Karlsruhe. For more than 15 years we have been providing our international customers - big corporations and medium-sized companies - with consulting and individual, enterprise-wide solutions based on our software product **Bee**4IT®. The focus is on lean and demand-driven implementations.

Senior Financial Management Consultant (m/f/x)

Tasks

- Together with our Product Owner you are responsible for the establishment and development of our Financial Management
- In a team of highly motivated colleagues, you are responsible for the mapping of business logic in the field of Financial Management in customer systems
- You are responsible for autonomous consulting and support of both external and internal customers
- Constantly new and exciting tasks enable you to think outside the box

Profile

- You have successfully completed a degree in Business Information Systems/Business Administration, or a similar discipline
- You have at least 3 years of experience in Financial Management/Controlling
- You have good knowledge of Windows operating systems (incl. MS Office) and a high IT affinity
- Ideally, you are familiar with SQL and MS SQL Server
- You have a high willingness to travel within the DACH region
- You have distinct communication and team skills and want to provide independent longterm consulting for large companies
- You have very good language skills in German and good language skills in English

Why Clausmark

- Pioneer in Information and Technology Management
- Fast-growing company with excellent development opportunities
- Flat hierarchies and a family atmosphere at work
- Attractive social and other benefits
- Exciting and diverse projects
